The college has a strong legacy of producing distinguished alumni who have excelled as educationists, judges, administrators, sports-persons, and entrepreneurs.

About the Conference

National Conference on Data-Driven Artificial Intelligence, Future Computing, and Emerging Academic Perspectives (2026) is a national-level multidisciplinary forum bringing together academicians, researchers, industry professionals, and students to discuss recent advances in data-driven AI and next-generation computing technologies. With rapid digital transformation, Artificial Intelligence, Big Data, and emerging paradigms such as cloud, edge, and quantum computing are reshaping research, education, governance, and society. DAIFC-26 provides a platform for exploring the innovative, ethical, and responsible adoption of these technologies across disciplines including science, engineering, management, healthcare, law, agriculture, and humanities. The conference aligns with the vision of National Education Policy 2020 and contributes to Viksit Bharat@2047 by promoting multidisciplinary research, innovation, and technology-enabled national development.
